### Review of Operations / State of Company affairs

National Commodity & Derivatives Exchange Limited ('NCDEX' / 'the Exchange'), the holding and promoter company of NCCL, is a commodity derivatives exchange.

Your Company was granted recognition by SEBI to act as a Clearing Corporation on September 10, 2018 for a period of one year. Subsequently on September 5, 2019, SEBI had granted renewal of recognition to act as a Clearing Corporation to NCCL for a further period of three years commencing on September 10, 2019 and ending on September 9, 2022 subject to certain conditions prescribed therein.

Your Company has entered into a clearing and settlement agreement with NCDEX to provide, inter alia, clearing and settlement services along with all associated and related functions, including managing instruments offered as collaterals, risk management and clearing & settlement functions for all trades executed on the NCDEX platform.

The Company has not undergone any change in the nature of its business during the financial year 2020-21.

#### **Initiatives and new developments:**

##### **1. Margin pledge facility for client collaterals through depositories:**

NCCL has extended a margin pledge facility through which clearing members are permitted to provide trading member proprietary securities/client securities towards the non-cash component of margin deposit requirements.

With the introduction of the new margin pledge facility, transfer of securities from client account to the demat account of the Trading Members (TMs)/Clearing Members (CMs) for margin purposes is now prohibited. A client shall pledge its securities as per the procedure laid down by the depositories with its TM, and the TM shall re-pledge the same with the CM, and the CM in turn shall re-pledge the same to the clearing corporation.

## **2. Reporting of collection of peak margin by members from their clients:**

SEBI vide its circular no. SEBI/HO/MRD2/DCAP/CIR/P/2020/127 dated July 20, 2020 had provided guidelines with respect to reporting of collection of peak margin by members from their clients.

NCCL has implemented the guidelines with a view that members are provided with necessary information in a detailed manner as well as are able to report the peak margin collection through the existing process. The gist of the change in process are as follows:

- At least 4 snapshots of client wise margin requirement are sent to Trading Members (TM)/Clearing Members (CM) at random intervals during the day for them to know the intraday margin requirement per client/TM/Custodial Participant.
- A separate client wise margin file is also provided to CMs/TMs containing the EOD margin requirements as well as the peak margin requirement of the client/TM/Custodial Participant, across each of the intra-day snapshots.
- The member shall have to report the margin collected from each client/TM/Custodial Participant, as at the EOD and the peak Initial margin collected during the day through the interface provided in NCFE.
- In case of shortfall in collection of either/ both initial margins as at the EOD and the peak Initial margin during the day, the prescribed penalty shall be levied on the highest of the shortfall amount.

## **3. Options in Goods:**

As a first in the country, NCDEX launched Options in Goods contracts in agri commodities. These option contracts have the same quality specifications, delivery centres, final settlement price methodology, trading hours and minimum tenor as the corresponding futures contract. NCCL has put in place the clearing and settlement and risk management processes for handling options in goods contract.

## **4. Facilitating Options Familiarization Program for FPOs:**

NCDEX launched "Options Familiarization Program for FPOs" with the support of SEBI on November 9, 2020 wherein FPOs registering as a client with a member of NCDEX were eligible to buy a Put Option and lock-in a price in Chana and Mustard seed. Subject to ceiling, the options premium payable by the FPOs for purchasing the put options is reimbursed by NCDEX through NCCL. NCCL facilitated the program by guiding and educating its clearing members, streamlining the entire reimbursement process and providing necessary information & help when needed.

## **5. Interactive training session for Members:**

During the year, various interactive training sessions were organized covering areas such as Clearing & Settlement, Warehousing, Risk, Billing, Membership and Compliance. The sessions were targeted to interact with members, understand their concern areas and address them.

Throughout the year, NCCL conducted 22 such online training sessions. Over 300 participants representing 200 members from across the country participated in these training sessions which saw an overwhelming response from the participants.

## **Risk Management**

NCCL has formulated its risk management framework based on the Comprehensive Risk Management Framework and other directives and guidelines issued by SEBI. The Risk Management Committee of the Governing Board oversees and monitors risk management of NCCL and implementation of risk related policies. The risk management policies of NCCL are approved by the Risk Management Committee and reviewed and tested regularly for assessing effectiveness. The Risk Management Committee has delegated certain functions and authority to the Internal Risk Committee of NCCL, which regularly reviews and monitors the risk management function in NCCL.

NCCL has a Risk Management System ('RMS') for real time computation of Value at Risk ('VaR') and portfolio based margin. Intra-day volatility is refreshed every two hours, seven times a day and the initial margin changes whenever volatility is refreshed. Also the Mark to Market ('MTM') obligation is recomputed for every last traded price change.

Risk is managed through measures like eligibility criteria and capital requirements of members, margin requirements, positions limits for member and clients, real time monitoring and alerts for increase in risk exposures and limit breaches etc.

## **Warehousing / Logistics**

NCCL facilitates physical settlement of trades executed on the NCDEX platform. To facilitate physical settlement, NCCL has empanelled 7 Warehouse Service Providers (WSPs). Each of these WSPs have their own assaying facilities. These WSPs provide warehousing services to clients, at various delivery locations, for physical settlement of their trades. Warehouses providing such services are registered with the Warehousing Development and Regulatory Authority (WDRA) and are approved by NCCL. For physical settlement of trades, selling clients can deposit their commodities in such NCCL approved warehouses and buying clients can receive these goods in physical form these warehouses. All approved warehouses are inspected by NCCL and also by Independent Inspection Agencies on regular basis for its operations and infrastructure as per the standard guidelines set by SEBI. For verification of quantity stored in NCCL approved warehouses, NCCL has a panel of Independent Inspections Agencies. These agencies are mandated to inspect approved warehouses and submit their reports. For improving market confidence, these reports are published on the NCCL website. NCCL has also empanelled 4 Independent Assayers, who are not associated with any of the empanelled WSPs and independently provide assaying services to NCCL and to buyers who request for such verification.

As on March 31, 2021, NCCL had 176 approved warehouses at 33 delivery locations spread across 10 states in the country. Rajasthan, Gujarat and Maharashtra are the major states contributing about 91% of the approved capacity. Out of these 176 warehouses, 174 warehouses are registered with the WDRA. The remaining two warehouses are not

registered with WDRA as they are approved for a commodity which is not a WDRA notified commodity. These 176 warehouses have a capacity of 6.61 lakh MTs and as at the end of the year, had 2.90 Lakh MTs of stock worth about Rs. 1436 cr.

During the period from April, 2020 till March 2021, approved warehouses saw deposits of about 5.32 lakh MTs, 25% of which was Chana followed by COC, RM Seed, Soybean and Guar Seed at 20%, 17%, 16% and 6% respectively. Rajasthan had 58% of the deposit during the financial year followed by Gujarat and Maharashtra at 22% and 19% respectively.

## **Information Technology**

NCCL has successfully virtualized and migrated its development and testing environments completely to the cloud thereby optimizing the on-premises setup costs. NCCL further completed migration of the clearing system to open-source technology and is in the final stages of testing and go-live. NCCL is now in the process of shifting its primary datacentre to a professionally managed data center service provider adhering to Tier 4 uptime standards.

NCCL along with the Exchange has conducted unannounced LIVE trading and clearing and settlement activities from its DR site. The members were not informed about it and were not required to take any action from their end. All trading and clearing activities were seamless and there no issues were reported.

Technology has been successful in facilitating all users to work from home given the extended lockdown due to COVID. Users have been able to work and continue their daily operations seamlessly thereby ensuring continuity of operations.

In addition to this, application changes were carried out to systems towards meeting various market requirements, regulatory requirements and operational requirements.

## **Human Resources**

This year in response to the Covid-19 pandemic NCCL took an additional Covid-19 insurance cover for all employees. A Work from Home Policy was rolled out to ensure employee safety, help employees to transition to the new way of working and to establish remote working norms. An internet Wi-Fi reimbursement facility was initiated to enable continued connectivity for business continuity. A relocation policy was rolled out to support employees who had to relocate from Delhi to the Jaipur office. A regular connect was maintained with all employees through various virtual platforms and monthly company town halls. Employee engagement initiatives were conducted virtually.

A detailed training needs identification for all employees was done with the stakeholders. Employees also worked on creating individual development plans. Sessions were held on learning and development to drive skill enhancement interventions aligned to the business strategy.. Employees were offered a list of online training courses to enable them to select the desired training course to suit their training needs. They were also allowed to propose courses beyond the said list.

Relations with employee during the year under review was harmonious. The number of employees as on March 31, 2021 was 60.

The disclosure pertaining to resources committed towards strengthening regulatory functions and towards ensuring compliance with regulatory requirements applicable to the Company, backed by an activity based accounting is given below:

<b>Sr. No.</b>	<b>Regulatory Functions</b>	<b>No. of Resources</b>	<b>Function Description</b>
1	Risk Management	7	A sound risk management system is integral to an efficient clearing and settlement system. NCCL shall provide adequate and effective risk management mechanism for creating a proper risk management framework and for enforcing the requirements uniformly, as provided in the relevant regulations from time to time, to ensure market safety and security and to ensure smooth and orderly completion of settlement of transactions. NCCL shall implement risk containment measures that are recommended internationally and are considered vital in the derivatives market. The most critical component of the risk containment mechanism for NCCL is the online position monitoring and margining system. The actual margining and position monitoring is done on-line, on an intra-day basis. NCCL collects initial margin for all open positions of a member based on the margins computed by the Risk Management System (RMS). Initial margin requirements are based on 99% Value at Risk over the margin period of risk (MPOR), subject to minimum two days and are margined at the portfolio level. The methodology for computation of Value at Risk is as per the recommendations of SEBI from time to time.
2	Membership	2	The Membership Department handles the admission, registration, supervision, compliance monitoring of members. The department also handles the work related to action against the members for regulatory violations.
3	Membership Inspection	1	The Member Inspection Department is responsible for carrying out inspection of activities relating to the clearing and settlement operations of members. The department also handles the work related to action against members for regulatory violations and conditions for continued membership.
4	Compliance	2	The Compliance Department monitors compliance with the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2018, the Securities and Exchange Board of India Act, 1992 and the rules, regulations and directions issued thereunder.

5	Enforcement & Default	1	A member may be declared a defaulter by direction of the Relevant Authority, if it is unable to fulfill its obligations, commits violations of the Rules, Byelaws and Regulations or the conditions of membership or admits or discloses his inability to fulfill or discharge its duties, obligations and liabilities, as laid down under the Bye Laws, Rules and Regulations. The Enforcement & Default Division is responsible for all matters pertaining to enforcement and dealing with default by a member.
6	Investor Services & Protection	2	NCCL primarily has two categories of members – members exclusively carrying out clearing & settlement activities and members who additionally may be Trading Members on the exchange. For matters pertaining to disputes or claims between members inter se and between a member and its clients, NCCL through its Investor Services Department, facilitates resolution of disputes and settlement of claims through the arbitration mechanism of the concerned exchange.
7	Chief Compliance Officer	1	Oversees all regulatory functions barring risk.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Industry Structure and Developments

A year ago, the World Health Organization declared COVID-19 a global pandemic. The COVID pandemic was the major bearish trigger for agricultural commodity markets during the first half of 2020 and the entire world was uncertain about the futures of global economy during that period. For most commodity markets, 2020 was undeniably a turbulent year. The outbreak of the coronavirus pandemic triggered a widespread global shutdown of economic activity that depressed demand and disrupted supply chains for commodities in virtually all sectors be it agricultural products, energy, base metals and even the precious metals. Agricultural commodities trended lower and established yearly lows during the first quarter of 2020.

The bad phase was over to some extent and things started recovering by end of June 2020, when lots of confusions regarding the control and cure of the deadly virus were eradicated. At the same time as unlocking restrictions were being removed, economy of different countries started improving resulting in overall demand in all commodities specially the edible agricultural commodities and post June most of agricultural commodities were near to the levels, when the pandemic problem emerged. The latter half of the year saw the prices of several important commodities rally spectacularly and, in a few cases, reach multi-year highs. The year saw impressive gains in the oil complex basket with Soybean, RM seed, Soya oil and CPO posting new highs. Another key feature was that sowing activity was not affected despite the lockdown restrictions, due to efforts taken by the government and sowing area of the major Kharif crops had been above last year. Even the Rabi crop sown area remains better year on year.

The vast expansion of international trading in fuels, metals and agricultural commodities in recent decades is one of the vital building blocks and enablers of globalization. Traders have harnessed the development of modern capital markets to finance trade and of futures markets to offset risk. They have helped the world cope with seismic and sometimes disruptive shifts in production and consumption, and reversals in the economic cycle. In particular, they have provided logistical and risk management services that have enabled the dramatic rise of new centers of economic growth. Globally, industry estimates suggest that around \$10 trillion of commodities are produced and consumed each year around the world. Production occurs in locations that are often far away from the principal consumption centers. Commodities traders provide vital support for this global model of production and consumption in a complex value chain that includes refining, processing, storage and shipping. The global commodity markets play a pivotal role in reducing overall cost, focusing on quality, improving competitiveness and marketability and securing supply.

As per International Monetary Fund World Economic Outlook update, amid exceptional uncertainty, the Global growth is projected at 6% in 2021, moderating to 4.4% in 2022. The projections for 2021 and 2022 are stronger than in the October 2020 WEO. The upward revision reflects additional fiscal support in a few large economies, the anticipated vaccine-powered

recovery in the second half of 2021, and continued adaptation of economic activity to subdued mobility. High uncertainty surrounds this outlook, related to the path of the pandemic, the effectiveness of policy support to provide a bridge to vaccine-powered normalization, and the evolution of financial conditions.

The strength of the recovery is projected to vary significantly across countries, depending on access to medical interventions, effectiveness of policy support, exposure to cross-country spillovers, and structural characteristics entering the crisis. India's real GDP growth for FY22 is projected at 11%, according to the Economic Survey 2020-21. The WEO January 2021 forecasts an 11.5% increase in FY22 and a 6.8% rise in FY23. According to the IMF, India is also expected to emerge as the fastest-growing economy in the next two years.

In terms of development, recent years saw steady slew of developmental initiatives that shall help deepen the participation and broaden the basket of instruments available in the commodities ecosystem. A few of the measures are given below:

- Launch of Options in Goods - To encourage farmer producer organizations to take benefit of trading on the exchange platform. This gives the opportunity to FPOs and farmers to lock in the selling price by buying 'Put Options' for their crop at the time of sowing and simultaneously protecting their right to participate in case prices rally;
- Revised delivery default norms for strengthening the deterrent mechanism and ensuring adequate compensation to the non-defaulting counterparty;
- Launch on Futures on Commodity Indices;
- Revision in Daily Price Limits ('DPL') for Commodity Futures Contracts;
- Participation of Mutual Funds in Commodity Derivatives Market in India;
- Participation of Portfolio Managers in Commodity Derivatives Market in India;
- Approval for Custodian Participant in the Commodities ecosystem which is a pre-requisite for institutional participation;
- Waiver of Regulatory Fee and utilization of the same to encourage the participation by Farmers / Farmer Producer Organizations ('FPOs') in agricultural commodity derivatives markets;
- Another important announcement made by the Ministry of Consumer Affairs, GOI was the decision to exempt commodities kept in WDRA approved warehouses for delivery on exchange platforms from stock limits. This is a significant step as it establishes the importance of the exchange ecosystem, eNWR and also brings more comfort among trade participants while using the futures platform for delivery transactions.

## **Opportunities and Threats**

It has been an unprecedented year for the commodity derivatives market with economic lockdown and other troubles caused by the ongoing Covid-19 pandemic. The pandemic has also narrowed the commodity market with fewer market participants even as the turnover increased largely due

to sharp rise in commodity prices. Closure of physical markets interrupted supplies in March-April, the peak harvesting period of Rabi commodities, had taken a heavy toll on volumes.

The revenues of National Commodity Clearing Limited ('NCCL') are dependent on the volumes of trades in National Commodity & Derivatives Exchange Limited ('NCDEX' / 'Exchange'). NCCL a wholly owned subsidiary of NCDEX, clears & settles trades executed on NCDEX trading platform. In the outgoing financial year, NCCL and NCDEX have made remarkable developments which undoubtedly have created new opportunities for all the market participants. Exchange has re-launched some of the commodities like Soybean meal, Gur, Sesame Seed and Steel and NCCL provided necessary support in terms of clearing & settlement, warehousing for smooth roll out of these products.

The options on goods have been launched in FY 2020-21. The launch of option on goods has been an innovative product helping farmers to lock in price of their produce even before they sow the seed. Moreover, the Exchange has resumed the evening trading session on holidays for global commodities.

NCDEX AGRIDEX is another milestone in the financial year 2020-21. AGRIDEX is India's first return based agricultural futures Index which tracks the performance of the ten most liquid commodities traded on NCDEX platform.

Such efforts have reaping effects on the revenues of NCCL. NCCL is dedicated to provide a robust clearing and settlement services to its members and create an environment of trust and reliance. Some of the recent developments include client margin facility through depositories which has seen active member participation. NCCL has been actively involved in member interactions and has conducted many training sessions for the benefit of its members. NCCL is focused on automation of processes to save time, increase precision and provide a world class services to its members.

Moreover, the government regulations and norms effect the commodities business and play a vital role in predicting the future prospects of the markets. Various recent government reforms will also strengthen the agri commodity ecosystem. The union government during the budget 2021-22 has spoken about the allocation of Rs. 131,531 crores for the agriculture sector. Government has also considered strengthening the farmers by providing adequate credit amounting to Rs. 16.5 lakh crores. A healthy market ecosystem will ensure new opportunities for NCCL as well.

The ongoing COVID-19 pandemic situation is posing a huge threat to not only the commodities markets but the economy overall. Although recent vaccine approvals have raised hopes of a turnaround in the pandemic later this year, renewed waves and new variants of the virus pose concerns for the outlook. The situation is hampering the logistical activities amid the lockdown conditions in various parts of the country.

## Segment-wise or product-wise performance

NCCL has started its operation as Clearing Corporation from September 27, 2018. The major revenue streams of NCCL are Risk Management fee, Physical Delivery charges, and Warehouse Service Provider charges. NCCL operates in a single segment viz. Clearing & Settlement service for Commodity to the Exchange. Financial performance during the year 2020-21 is as below:

Particulars	(Rs. in lakhs)
	For the year ended March 31, 2021
Total Income	2,209
Total Expenditure	2,186
Profit before tax and Exceptional item	23
Exceptional items	93
Profit/(Loss) before tax	(70)
Profit/(Loss) after tax (A)	(55)
Other comprehensive income/(loss), net of tax (B)	(1)
Total comprehensive income/(loss) (A+B)	(56)

## Outlook

Agricultural prices, which are projected to rise in 2021, are expected to stabilize in 2022. Production shortfalls in some food commodities, such as soybeans, palm oil, and maize, have resulted in steep price increases; however, most global food commodity markets remain adequately supplied by historical measures. While the stock-to-use ratio, a rough measure of demand relative to supply, has fallen slightly during the past two crop seasons to around 28 percent, it is still much higher than the historical lows of 2006-07 of 17 percent.

The recent situations where the physical activities have been hampered owing the global pandemic, the online trading platform is the suitable option for the fair pricing of the agricultural produce and helping the stake holders to mitigate risk. NCCL along with NCDEX, National E-Repository Limited ('NERL') and NCDEX e Markets Limited ('NEML') has been proactive in creating a conducive environment for increasing participation and penetration of commodity traders by creating an environment of mutual trust and confidence.

## Risks and concerns

NCCL clears the trades done on NCDEX platform that in turn is largely dependent on strong fundamentals in the economy particularly in the agro sector. Adverse economic conditions including market trends and other factors beyond the control of the Company could have an

adverse impact on the business, financial condition and results of operations. Moreover, the unpredictable situation due to COVID-19 is a major challenge for the volumes traded on NCDEX trading platform, which could possibly affect the revenues of NCCL. The operations are pre-dominantly technology driven and the systems require continuous upgradation and technology costs, which form a significant portion of the total costs.

NCCL operates in a highly regulated environment and increase in compliance and regulatory costs are outside its control. Further, as it operates predominantly in the agri space which is a politically sensitive area, it is vulnerable to changes in Government policies that could significantly affect trading volumes. The lack of understanding of the commodity business of farmers is the major concern which is hampering the market penetration. There is still a huge scope for the increase in the involvement of farmers, traders and various key players involved in the business of commodities. However, the Company is actively working with Government agencies to bring about policy reforms for development of commodity markets in general and with all other stakeholders to create awareness and benefits of hedging using futures contracts which in turn would have a favorable impact on its business.

## **Internal Controls and their adequacy**

The Board has put in place various internal controls to be followed by your Company to ensure that the internal control mechanisms are adequate and effective. The design, implementation and maintenance of adequate internal financial controls are such that it operates effectively and ensures the accuracy and completeness of the accounting records and their presentation gives a true and fair view of the state of affairs of the Company and are free from material misstatements, whether due to error or fraud.

These controls include:

- i) recording of transactions in a manner that facilitates preparation of financial statements as per the Generally Accepted Accounting Practices;
- ii) maintaining records that in reasonable detail, fairly and accurately reflect the transactions of the Company;
- iii) ensuring that all expenditure and income are as per approval of the management;
- iv) providing reasonable assurance regarding prevention and timely detection of unauthorized acquisition, use or disposition of company's assets that could have material impact on the financials statement of the Company.

The Audit Committee, through the internal audit function outsourced to a reputed audit firm, reviews the adequacy and adherence of the controls to ensure any material mis-statement or error is avoided.

## **Discussion on Financial Performance with respect to Operational Performance**

The Average Daily Open Interest ('ADOI') during the financial year 2020-21 was Rs. 2,693 crore. The value of total physical deliveries handled by the Clearing Corporation during the year was Rs. 1,755 crore. The total income for the year ended March 31, 2021 was Rs. 22.09 crore and total expenditure (before Exceptional items) was Rs. 21.87 crore. The Profit / (Loss) after Tax and Exceptional items is Rs. (0.55) crore and the Total Comprehensive Income (after adjusting for Other Comprehensive Income) is Rs. (0.56) crore.

## **Material Developments in Human Resources including number of people employed**

This year in response to the Covid-19 pandemic NCCL took an additional Covid-19 insurance cover for all employees. A Work From Home Policy was rolled out to ensure employee safety, help employees to transition to the new way of working and to establish remote working norms. An internet wifi reimbursement facility was initiated to enable continued connectivity for business continuity. A relocation policy was rolled out to support the employees who had to relocate from Delhi to Jaipur office. A regular connect was maintained with all employees through various virtual platforms and monthly Company town halls. Employee engagement initiatives were conducted virtually.

A detailed training needs identification for all employees was done with the stakeholders. Employees also worked on creating individual development plans. Sessions were held on learning and development to drive the skill enhancement interventions aligned to the business strategy. They were introduced to a plethora of online training courses for self-nomination.

The employee relations scenario has been harmonious throughout the period under consideration. The number of employees as on March 31, 2021 were 60.

## **Disclosure on Accounting Treatment**

NCCL has followed Indian Accounting Standards ('IND AS') issued and notified by the Ministry of Corporate Affairs under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) read with Section 133 of the Companies Act, 2013 to the extent applicable have been considered in the preparation of Financial statements for the FY 2020-21. **INDEPENDENT AUDITOR'S REPORT**

**To the Members of National Commodity Clearing Limited**

**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the accompanying financial statements of **National Commodity Clearing Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Loss), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss and total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

**Information Other than the Financial Statements and Auditor's Report Thereon**

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive loss, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the **Annexure 'A'**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Loss, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.
  - d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.

- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in **Annexure 'B'**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:  
  
In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company has disclosed the impact of pending litigations as at March 31, 2021 on its financial position in its financial statements – Refer Note 40 to the financial statements.
  - ii. The Company did not have any long term contracts including derivatives contracts for which there were any material foreseeable losses - Refer Note 42 to the financial statements.
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2021 - Refer Note 43 to the financial statements.

### **Annexure B to the Independent Auditor's Report for the year ended March 31, 2021**

**(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of National Commodity Clearing Limited of even date)**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act**

We have audited the internal financial controls over financial reporting of **National Commodity Clearing Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **Background and Significant Accounting Policies**

### **Background**

National Commodity Clearing Limited (the 'Company') is a wholly owned subsidiary of National Commodity and Derivatives Exchange Limited and is set up to provide clearing and settlement services to the holding company.

The financial statements were authorised for issuance by the Company's Board of Directors on May 18, 2021.

### **1 Significant accounting policies :**

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to year presented, unless otherwise stated.

#### **a) Statement of compliance**

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015.

#### **b) Basis of preparation**

These financial statements have been prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, on accrual basis and are drawn up in accordance with the provisions of the Companies Act, 2013 (the Act) and Indian Accounting Standards ("Ind AS") notified under Section 133 of Act read with Rule 3 of Companies (Indian Accounting Standards) Rules, 2015, amendment to the Rules and other relevant provisions of the Act.

##### **(i) Historical cost convention**

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets that is measured at fair value,

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36, Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the company can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

#### **c) Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of allowances, incentives, taxes and amounts collected on behalf of third parties.

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and specific criteria have been met for each of the Company's activities as described below. The Company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenue is recognised in the period when the service is provided as per arrangements/agreements with the customers.

The sources of revenue are:

- i) Risk Management Fees is recognized when open interest is increased as compared to previous day.
- ii) Delivery charges are recognised as income on delivery of commodities.
- iii) Warehouse charges are recognized when a new location is accredited by a warehouse service provider (WSP) and when WSP information is processed.
- iv) Annual subscription charges are recognised as income on a time proportion basis beginning from the month in which member is enabled.
- v) Admission fees are recognized as income at the time an applicant is converted as member.
- vi) Income excludes applicable taxes and other levies.
- vii) Dividends on Investments are recognized when a right to receive the same is established
- viii) Interest is recognized on time proportionate basis taking into consideration the amount outstanding and the rate applicable.
- ix) All other revenue is recognised in the period in which the performance obligation is satisfied over a period of time or point in time.

**d) Income Tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses, if any.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax liabilities are recognized for all taxable temporary differences.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset deferred tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognized in statement of profit and loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note issued by the Institute of Chartered Accountant of India (ICAI), on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the Statement of Profit and Loss and shown as "MAT Credit Entitlement". The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal tax during the specified period.

**e) Impairment of assets**

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). An impairment loss is recognized as an expense immediately, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income immediately, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase. Non financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

**f) Cash Flow Statements & Cash and cash equivalents**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Restricted cash:**

Other bank balances comprise of Fixed deposits with maturity of more than three months and less than twelve months, other non current financial assets contains Fixed deposits with maturity of more than one year.

**g) Trade receivables**

Trade receivables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

## h) Investments and other financial assets

### (i) Recognition

All financial assets are recognized and de-recognized on a trade date basis where the purchase or sale of an investment is under a contract whose terms require delivery of the investment within the timeframe established by the market concerned.

### (ii) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit and loss or other comprehensive income. For investment in debt instruments, this will depend on business model in which the investment is held.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

### (iii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in statement of profit and loss.

### Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the group classifies its debt instruments:

- **Amortized cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. A gain or loss on a debt investment that is subsequently measured at amortized cost and is not part of a hedging relationship is recognized in statement of profit and loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit and loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to statement of profit and loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

- **Fair value through profit or loss:** Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss.

### (iv) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

### (v) De-recognition of financial assets

A financial asset is de-recognized only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is de-recognized. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not de-recognized.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is de-recognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

### (vi) Income recognition

#### Interest income

Interest income from debt instruments is recognized using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial assets to the gross carrying amount of financial assets. When calculating the effective interest rates, the Company estimates the expected cash flows by considering all the contractual term of the financial instruments but does not consider expected credit losses.

#### Dividends

Dividends are recognized in the statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be reliably measured.

**i) Financial liabilities**

**(i) Classification as debt or equity**

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

**(ii) Initial recognition and measurement**

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit or loss.

**(iii) Subsequent measurement**

Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognized in the statement of profit and loss.

**(iv) Derecognition**

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expires.

**j) Property, plant and equipment (including CWIP)**

PPE are stated at actual cost less accumulated depreciation and impairment loss. Actual cost is inclusive of freight, installation cost, duties, taxes and other incidental expenses for bringing the asset to its working condition for its intended use (net of CENVAT / GST) and any cost directly attributable to bring the asset into the location and condition necessary for it to be capable of operating in the manner intended by the Management. It includes professional fees and borrowing costs for qualifying assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance costs are recognized in the Statement of profit and loss as incurred.

Depreciation of these PPE commences when the assets are ready for their intended use. Depreciation on subsequent expenditure on PPE arising on account of capital improvement or other factors is provided for prospectively over the remaining useful life.

Depreciation is provided on straight line method over the useful life of the assets.

Fixed assets having an original cost less than or equal to Rs. 5,000 individually are fully depreciated in the year of purchase or installation.

Leasehold improvement is amortized over the renewable period of lease.

**(i) The useful life of property, plant and equipment are as follows :**

<b>Assets</b>	<b>Useful Life of Asset</b>
Improvement to Lease hold Property	Over the period of lease
Office Equipment's	5 years
Office Hardware - Servers etc.	6 years
Office Hardware - Desktop, Laptop etc.	3 years
Furniture and Fixtures	10 years
Vehicle	8 years
Telecommunication Systems	6 years

The estimated useful life and residual values are reviewed on an annual basis and if necessary, changes in estimates are accounted for prospectively.

An item of PPE is de-recognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of PPE is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the Statement of profit and loss.

**(ii) Intangible Assets:**

Intangible assets are recorded at acquisition cost and are amortized over the estimated useful life on straight line basis. Depreciation on additions is provided on pro-rata basis from the date of acquisition/ upto the date of deletion.

<b>Assets</b>	<b>Estimated Useful Life of Asset</b>
Software	4 years

**k) Trade and other payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method.

**l) Provisions**

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation to be settled at future date. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

**m) Contingent Liabilities and Contingent Assets**

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Contingent assets are not recognized in the financial statements. However if the inflow of economic benefits is probable, then it is disclosed in the financial statements.

**n) Earnings per share**

**(i) Basic earnings per share**

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the period.

**(ii) Diluted earning per share**

Diluted earning per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

**o) Foreign currency translation and transactions**

**(i) Functional and presentation currency**

Items included in the financial statement of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian currency (INR), which is the Company's functional and presentation currency.

**(ii) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit and loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognised in other comprehensive income.

**p) Leases**

**As a lessee**

Leases of property, plant and equipment, where the terms of the lease has substantially transferred all the risks and rewards of ownership to the Company are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

**q) Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

**r) Contributed Equity**

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**s) Dividends**

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period.

**t) Current versus Non-current classification and operating cycle**

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle i.e. 12 months
- Held primarily for purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle i.e. 12 months.
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.
- All other liabilities are classified as non-current.

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

**u) Rounding of Amounts**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule III, unless otherwise stated.

**v) Critical Accounting Estimates And Judgements**

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

Estimation of useful life of property, plant and equipment and intangible asset refer Note 1(j)

Estimation of current tax expense and payable Note 24

Estimation of contingent liabilities refer Note 28

Estimation of Impairment of Assets refer Note 1(e)

Estimation of Provision for doubtful debts

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

- w)** As per SEBI vide circular no. CIR/MRD/DRMNP/25/2014 dated August 27,2014 every recognised clearing corporation shall establish and maintain a Fund for each segment, to guarantee the settlement of trades executed in that respective segment of a recognised Commodity exchange. The Clearing Corporation shall have a fund called Core SGF for each segment of each Recognised Commodity Exchange to guarantee the settlement of trades executed in the respective segment of the Commodity Exchange. In the event of a clearing member (member) failing to honor settlement commitments, the Core SGF shall be used to fulfill the obligations of that member and complete the settlement without affecting the normal settlement process. The Core SGF shall be contributed by National Commodity Clearing Limited (NCCL), National Commodity & Derivatives Exchange Limited (NCDEX) and the clearing members, in a manner as prescribed by SEBI. This fund is represented by earmarked Core SGF investments. The income earned on such investments is credited to the respective contributor's funds and adjusted towards incremental requirement of Minimum Required Corpus (MRC). Settlement related penalties are transferred to Core SGF.

**x) Recent pronouncements**

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

**Balance Sheet:**

- Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- Specified format for disclosure of shareholding of promoters.
- Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

**Statement of profit and loss:**

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the standalone financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

Accordingly, the Company was required to have the Core SGF of ₹ 228.00 crore as on March 31, 2021, for which the Company, vide its letter dated March 15, 2021 to SEBI, sought an extension of time till September 30, 2021. SEBI granted an extension of time to increase the Core SGF till September 30, 2021.

**Description of nature and purpose of reserve**

**Settlement Guarantee Fund**

Core Settlement Guarantee Fund (SGF) is established to guarantee the settlement of trades executed in Commodity Exchange. In the event of a clearing member (member) failing to honor settlement commitments, the Core SGF shall be used to fulfill the obligations of that member and complete the settlement without affecting the normal settlement process.

**Retained Earnings**

The amount that can be distributed by the Company as dividends to its equity shareholders is determined based on the separate financial statements of the Company and also considering the requirements of the Companies Act, 2013. Thus, the amounts reported above are not distributable in entirety.

Investment Details :-

The major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

Particulars	Gratuity	
	For the year ended March 31, 2021	For the year ended March 31, 2020
Investments with insurance fund	100%	100%

Sensitivity :-

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

Gratuity	Change in Assumption	2021		2020	
		Increase / (decrease) in liability	Increase / (decrease) in liability	Increase / (decrease) in liability	Increase / (decrease) in liability
Discount rate	+1%/-1%	-6.19	6.74	-5.20	5.66
Salary Escalation Rate	+1%/-1%	6.48	-6.08	5.44	-5.09
Employee Turnover	+1%/-1%	-1.39	1.43	-1.07	1.10

The sensitivity analysis have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The sensitivity analysis presented above may not be representative of the actual change in the projected benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the projected benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same method as applied in calculating the projected benefit obligation as recognised in the balance sheet.

Note-1: The estimates of rate of escalation in salary considered in actuarial valuation, takes into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the Actuary.

Note-2: The obligations are measured at the present value of estimated future cash flows by using a discount rate that is determined with reference to the market yields at the Balance Sheet date on Government Bonds which is consistent with the estimated terms of the obligation.

Note-3: The estimate of future salary increase, considered in the actuarial valuation, takes account of inflation, security, promotion and other relevant factors such as supply and demand in the employment market.

33 (a) Fair value measurement

(i) Fair value Hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value and are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three level prescribed under the accounting standard. An explanation to each level follows underneath the table.

Financial Assets and Liabilities measured at Fair Value - recurring fair Value measurements at March 31, 2021.

Particulars	Notes	Level 1	Level 2	Level 3	Total
<b>Financial Assets</b>					
<b>Financial Investment at FVPL</b>					
Mutual Fund	7	4,267.98	-	-	4,267.98
<b>Total Financial Assets</b>		<b>4,267.98</b>	<b>-</b>	<b>-</b>	<b>4,267.98</b>

Financial Assets and Liabilities measured at Fair Value - recurring fair Value measurements at March 31, 2020

Particulars	Notes	Level 1	Level 2	Level 3	Total
<b>Financial Assets</b>					
<b>Financial Investment at FVPL</b>					
Mutual Fund	7	-	-	-	-
<b>Total Financial Assets</b>		<b>-</b>	<b>-</b>	<b>-</b>	<b>-</b>

For financial assets and liabilities which are measured at amortised cost, their carrying amount is approximately equal to the fair values.

The fair value of financial instruments as referred to in note above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The categories used are as follows :

**Level 1**

Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, exchange traded funds and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

**Level 2**

If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. The fair value of financial instruments that are not traded in an active market (for example, government securities) is determined using FIMMDA valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates.

**Level 3**

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

**(ii) Valuation technique used to determine fair value**

Specific valuation techniques used to value financial instruments include:

- The use of quoted market prices and NAV.

**(iii) Fair value measurements using significant unobservable inputs (level 3)**

No items falling in level 3 during the restated period.

**(iv) Valuation processes :**

The finance department of the Company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. Expert opinion is taken as and when required.

**(b) Financial Instruments by category**

The Company's approach to managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions.

The Company maintains a conservative funding and investment strategy, with a positive cash balance during the year ended March 31, 2020. This was the result of cash generated from operating activities to provide the funds to service the financial liabilities on a day-to-day basis.

The Company's treasury department regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated by the operating entities, over and above the amount required for working capital management and other operational requirements, is retained as cash equivalents (to the extent required), other highly liquid investments and excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimize the returns on investments while ensuring sufficient liquidity to meet its liabilities.

#### B MANAGEMENT OF MARKET RISK

The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- interest rate risk

The above risks may affect the Company's income and expenses, or the value of its financial instruments. The objective of the Company's management of market risk is to maintain this risk within acceptable parameters, while optimizing returns.

##### Trade and other receivables :

Concentrations of credit risk with respect to trade receivables are limited, due to the Company's customer base being large and diverse and also on account of member's deposits kept by the company as collateral which can be utilised in case of member default. Further, amount lying in Core settlement Guarantee fund (Core SGF) is available for utilisation in case of settlement default by member. All trade receivables are reviewed and assessed for default on a quarterly basis.

#### C CAPITAL MANAGEMENT

The Company considers the following components of its Balance Sheet to be managed capital:

Total equity (as shown in the balance sheet). – retained profit, share capital.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimize returns to our shareholders. The capital structure of the Company is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. Company considers the amount of capital in proportion to risk and manage the capital structure in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Company aims to translate profitable growth to superior cash generation through efficient capital management. The Company's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Company's focus is on keeping strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required, without impacting the risk profile of the Company. The Company will take appropriate steps in order to maintain, or if necessary adjust, its capital structure. The Company is not subject to financial covenants in any of its significant financing agreements.
